

# Terms and Conditions

*Website and platform terms for SwapCoinInvest educational services*

<b>Operator</b>	TPG Corporation LLC
<b>Domains</b>	swapcoininvest.com   app.swapcoininvest.com
<b>Registered Address</b>	Georgia, Khelvachauri Municipality, Khelvachauri Village, 6th Street, II Lane, No. 1G
<b>Effective Date</b>	25 March 2026

**Drafting note:** This version is prepared for website publication and internal legal review. Missing publication inputs remain shown in square brackets where required.

## 1. Operator and Scope

These Terms and Conditions govern access to and use of swapcoininvest.com, app.swapcoininvest.com, the user account area, educational dashboards, content library, consultation booking functions, digital tools, and related online services operated by TPG Corporation LLC (the "Company") under the SwapCoinInvest brand.

The Platform is offered as an online education and information service. It is intended for access to courses, lessons, consultations, mentoring, recorded content, community features, knowledge materials, and related support tools.

By accessing the website, creating an account, topping up an account balance, ordering a service, or continuing to use the Platform, the user confirms that the user has read, understood, and agreed to these Terms and the policies referenced in them.

## 2. Definitions

"Platform" means the websites, subdomains, account areas, interfaces, digital learning modules, dashboards, tools, booking systems, and related infrastructure operated under the SwapCoinInvest brand.

"User" means any individual or legal entity representative who visits the website, registers an account, or purchases or uses any service.

"Services" means online learning, educational materials, webinars, video lessons, live sessions, mentoring, online consultations, support materials, digital tools, and other information services described on the Platform.

"Account Balance" means the internal non-bank ledger value reflecting funds credited by a user to the user's Platform account for subsequent payment of eligible services.

## 3. Nature of Services

The Company provides educational and informational services only, unless the Company expressly enters into a separate written agreement stating otherwise.

Any dashboards, simulations, calculators, examples, market illustrations, scenario materials, signals, analytics screens, or practice environments are provided as learning or demonstration tools within an educational environment.

The Platform does not promise or guarantee any particular academic, professional, business, financial, or other outcome, and no statement on the Platform should be interpreted as a guaranteed result.

## 4. Eligibility and Account Registration

The user must be at least [minimum age] years old, or the age required by applicable law, to use paid services unless a lawful parent or guardian acts on the user's behalf.

When creating an account, the user must provide accurate, current, and complete information and must promptly update information that becomes inaccurate.

The user is responsible for maintaining the confidentiality of login credentials, one-time codes, API or wallet identifiers used for account verification, and all other means of access. Account sharing, resale of access, or use of one account for multiple users is prohibited unless expressly allowed in writing.

## **5. Top-Ups, Billing Model, and Charges**

Paid services on the Platform are made available through a pre-funded internal account balance model. The user tops up the internal balance in [currency], or in another currency or payment equivalent accepted by the Company's payment infrastructure.

A top-up adds funds to the user's internal Platform balance for later use. A top-up does not by itself mean that a specific service has already been rendered, unless a service is purchased and activated as part of the same checkout flow.

When the user selects a course, consultation, subscription, mentoring product, module, or another paid service, the applicable service fee is debited from the internal account balance in accordance with the price shown at the moment of order confirmation.

Where a service is recurring, renewable, package-based, or auto-renewing, the relevant charging logic must be shown before confirmation of the order, and the user agrees that such charges may be deducted from the internal balance or by another agreed payment method.

The Company may impose top-up minimums, anti-fraud checks, transaction verification steps, holding periods, or payment method restrictions, and may reject or reverse suspicious transactions where required by law, payment provider rules, or internal compliance standards.

## **6. Access to Content and Licence**

Access to content is granted for the period, plan, package, or licence scope described in the relevant product page, invoice, or offer description.

Unless the product page states otherwise, the Company grants the user a limited, non-exclusive, non-transferable, revocable licence to access the purchased content for the user's personal internal use only.

The user may not copy, record, redistribute, republish, upload, mirror, sublicense, white-label, repackage, resell, or commercially exploit courses, videos, slide decks, written materials, prompts, playbooks, datasets, templates, or other content without the Company's prior written consent.

## **7. User Conduct**

The user must use the Platform lawfully, honestly, and in a manner that does not interfere with the rights of other users, the security of the service, or the operation of payment systems and hosting infrastructure.

Prohibited conduct includes hacking, credential stuffing, brute force attempts, scraping without permission, automated harvesting, unauthorized API usage, malicious code insertion, social engineering, use of stolen payment instruments, money laundering, unlawful content publication, spam, harassment, impersonation, or violation of sanctions or export rules where applicable.

The Company may suspend or terminate access, block balances, restrict features, or refuse future service where it reasonably suspects fraud, chargeback abuse, unlawful conduct, intellectual property infringement, or misuse of the educational environment.

## **8. No Financial Advice; Risk Acknowledgment**

The Platform is not a broker, bank, investment adviser, portfolio manager, exchange operator, custodian, or fiduciary, unless expressly stated in a separate signed agreement.

All information presented on the Platform is provided for educational and informational purposes only and does not constitute financial, investment, tax, legal, accounting, or other professional advice.

Markets, trading strategies, and financial instruments involve risk. If the Platform includes any materials related to trading or market practice, the user acknowledges that losses may occur and that the user remains solely responsible for all decisions and actions taken outside the educational environment.

## 9. Disclaimers and Limitation of Liability

The Platform, content, consultations, tools, and website are provided on an “as is” and “as available” basis to the maximum extent permitted by applicable law.

The Company does not guarantee uninterrupted uptime, continuous availability of every feature, compatibility with every browser or device, freedom from bugs, or uninterrupted access to live sessions, recordings, or community functions.

To the maximum extent permitted by law, the Company’s total aggregate liability arising out of or relating to the Platform or the Services is limited to the amount actually paid by the user for the relevant service during the reasonable period preceding the event giving rise to the claim.

To the maximum extent permitted by law, the Company is not liable for indirect, incidental, consequential, special, punitive, or exemplary damages, including loss of opportunity, loss of profit, loss of data, reputational loss, trading loss, or business interruption.

## 10. Intellectual Property

All intellectual property rights in the Platform and its contents, including software, interfaces, text, audiovisual works, scripts, designs, graphics, databases, methodologies, course structures, and brand assets, belong to the Company or its licensors.

No transfer of ownership is made under these Terms. The user receives only the limited rights expressly stated in these Terms or in a specific licence description.

The Company may use access controls, watermarking, session logging, device limits, and legal enforcement measures to protect its materials.

## 11. Suspension, Termination, and Survival

The Company may suspend access for maintenance, upgrades, investigation of incidents, compliance checks, legal requests, or other reasonable operational grounds.

The user may stop using the Platform at any time, but termination of access does not automatically entitle the user to a refund unless the Refund and Cancellation Policy expressly provides otherwise.

Clauses concerning payment obligations, intellectual property, risk warnings, disclaimers, confidentiality, evidence, dispute resolution, and any provision intended to survive termination will remain in force after access ends.

## 12. Governing Law and Disputes

These Terms are governed by [governing law and jurisdiction], unless mandatory consumer protection law requires a different rule.

Before filing a formal claim, the parties should attempt to resolve the matter through good-faith written notice sent to the support or legal contact provided on the Platform.

Where legally allowed, disputes shall be submitted to the competent court or arbitration forum specified by the Company’s published legal information or a separate written agreement.
